DETAILED ACTION

Election/Restrictions

1. Applicant's election is acknowledged. However, the restriction is withdrawn.

Allowable Subject Matter

2. Claims 1-20 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose applicant's claimed method of making a bipolar transistor (i.e. claims 14-20) or bipolar transistor made thereby (i.e. claims 1-13), particularly characterized by the self-aligned etch-stop layer (in relation to the transistor's raised extrinsic base self-aligned to the transistor's emitter).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Drawings

4. The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

Add "Prior Art" to Fig. 1 and Fig. 2.

5. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

Art Unit: 2826

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references cited disclose bipolar transistor structures and methods of making bipolar transistors with self-aligned features, yet do not suggest the kind of self-aligned etch-stop layer (in relation to the transistor's raised extrinsic base self-aligned to the transistor's emitter).
